## **President's Circle**

We wish to thank our past trustees and officers for their dedicated service as leaders of our organization. Their direction established an organization which is shaping our community's collective memory of our past and continues to focus our attention on enlightening the future efforts that instill a sense of community pride and preservation awareness.

In recognition of their work, we have established a President's Circle where each of the active, past leaders will serve in an honorary capacity. As former trustees of the Yorktown Historical Society, these individuals understand the commitment the Society's board of trustees must make to fulfill their obligations. There are always decisions to be made and efforts to undertake which require a great deal of insight and perseverance.

The President's Circle would serve in an advisory capacity and likely would meet maybe once or possibly twice a year. During these meetings, the President would like to share the Yorktown Historical Society's goals, plans and projects and hear thoughts on how we might better accomplish what we are setting out to do. Feedback would be welcome as a sounding board to ensure we are on the right path.

## **Our Past Trustees**

Since they are an integral part of the Yorktown Historical

Society's legacy we wish to honor each of our past trustees for their contribution to our organization by highlighting them below:
