

History

Yorktown is rich in historical heritage and rich in scenic beauty. Nestled on the Croton River, near the confluence of the Croton and Hudson, and just below the Highlands, Yorktown was a strategic location during the Revolutionary War. During the ensuing centuries, the town matured into a thriving farming community and eventually into a vibrant suburban center.

We hope you enjoy the presentation of our unique heritage in this section of our website and look forward to hearing from you! Please feel free to participate in our blog. If you would like specific information about our community and history-related topics, please use our Quick Contact Form.

Welcome to our town, Yorktown!
